

Contents of the kit

Lighting modes

- Press to turn on and change the light
- Favorize the stem growth.
- Favorize blooming and bud growth.
- Brings visibility to the growing space.
- Favorize vegetative growth and blooming.

The instructions

1. Remove the planting pot, the cotton wool and the bag of potting soil.

2. Soak the potting soil in water until it is saturated.

3. Stir the potting soil into the planting pot.

4. Place the seeds and cover them with a thin layer of potting soil.

5. Fill the planting tray halfway with water and place the planting pot in it.

6. Connect the planter with the USB cable and turn on the light.

GIFT IDEA

FAST GROWING

EASY TO USE

Grow, decorate, enjoy

Important points

- Change the water every 2/3 weeks.
- If you hear a beep and the indicator turns red, add water to the holes after lifting the valve.
- We advise you to plant a maximum of 2 types of seeds (e.g. 2 herbs).
